## MONEY, STOCKS AND GRAIN

Leading Shares in Wall Street Yesterday Were Firm and Made Advances.

General Electric Suffered from a Bear Raid and Afterward Recovered-Indianapolis Cereals Lower and Active.

## THE BOND MARKET.

Rallway Issues Weak and Active with Sales of \$1,374,000.

At New York, yesterday, money on cal was firmer at 2@5 per cent., the last loan being made at 24 per cent., closing offered at 21/2 per cent.

Prime mercantile paper, 6@8 per cent. Sterling exchange was firm, with actual business in bankers' bills at \$4.85 1/2 @4.86 for

sixty days and \$4.89% @4.89% for demand. The New York stock market opened comparatively firm and the leading shares made fractional advances on the final quotations of Saturday. Advices from London that the first day of the fortnightly settlement had passed without any serious embarrassments bad the effect of imparting a firmer tone to the dealings, but the bears soon started on another raid to catch stop orders and in a short time some stocks scored material losses. General Electric was the principal sufferer, declining from 67% to 64% on large sales.
Distillers', about the same time, broke
23s, to 16. Reading was subsequently
pressed for sale, and fell five points to
163s. This, together with a drop of 1 to 5
per cent, in the bonds, added to the weakness of the general market. The heavy pressure to sell the Readings was due to the disappointment felt concerning the readjustment plan, more particularly tying the stock in a voting trust for a series of years. Rumors of probable heavy gold shipments by Thursday's steamers aided the decline in the general list. Near the close General Electric bounded up 31/8 Cordage common 1%, preferred 9, and Sugar 1% per cent. The sales reached 320,-947 shares, of which 15,576 were unlisted. The market closed firm in tone.

Railway bonds were active and weak. The features were the Readings, which were heavy. Wabash seconds fell 3, to 71. The sales aggregated \$1,374,000. Government bonds were firm. State bonds were neglected. Closing quotations were:

Trade Rather Quiet as the Month Nears Its Close, with Prices Steady.

As usual with a month nearing its close, trade yesterday was a little off, but the business of the month has been quite satisfactory. In the produce market there is considerable activity, and eggs go up to 12 cents, and are firm at that price. Poultry and butter are both steady at quotations. A number of changes will be noted in the provision market, most of them a letting down in prices. Strawberries are in light supply and firm at \$4 per crate. Old and new potatoes are a little lower. Cheese is off 4c. The wool clip is coming in freely, and prices are easy at quotations. The hide market is quiet and prices weak. It was an off day in the local grain mar-ket. Prices of wheat, corn and oats went

off from to to 2c, and there was more than ordinary excitement on 'Change. Receipts are increasing and more is doing than at any time in some weeks past. WHEAT BREAKS BELOW 70

Reaching 681c, the Lowest Point Touched Since the War Save Once.

The Chicago Market Fairly Deluged with Bear News, Reports Coming from All Over Europe as Well as from This Country.

TRADING AT CHICAGO.

Charley Wright Playing with Pork to the Sorrow of Numerous Scalpers. CHICAGO, May 29.-Wheat to-day sold, with one exception, at the lowest point in thirty years. The single exception was in 1887, during the reaction from the inflation caused by the running of a corner by Harper, the bank manager, of Cincinnati. The great receipts with, little outlet for the wheat, the fine weather, weaker cables. financial tightness and the heavy load of wheat carried here, all acted as depressing influences. The eash price broke below 70c early, and decided many wagers made on such a figure. Then, on the shaky feeling, May touched 684c, a price reached only

once before since war times. Liquidation was on a stupendous scale, Stop-loss orders were pouring in all day, margins were wiped out almost every moment, causing large lots to be thrown on the market, and short sellers were encouraged to operate with increased freedom. The local receipts were 150 cars above expectations, and the deliveries at all primary points were heavy, while exports were slow. The newspapers had long dispatches from Europe claiming that the wheat outlook there was almost without exception either up to an average or above, and there was little doubt but that the outlook in America was more encouraging. The trade did not stop to inquire whether the authority for the rosy view of the foreign situation was any better than the authority which has of late been sending contrary reports, but as cables came lower they were regarded as confirmatory and the selling

went on unchecked. The opening was 40 34c lower, and with only slight finetuations prices further declined 14c, then held steadier, and the closing was about 130 lower for July and 20 lower for September than the closing figures of Saturday. There has been a good deal of aggravation of the situation by the persistent statement that money is difficult to borrow on the security of wheat. Eggleston, who is in a position to talk authoritatively on the subject, says that owing to within 50 off its market price. He says also that he never found it easier to borrow on wheat collaterals. The visible supply decreased 1.433,000 bushels, which was 890,000 bushels more than was generally looked for, and there was some cash wheat worked for export, which two circumstances were of some assistance in steadying the market

at the decline. Corn was easy, but small stocks make sellers careful and the day's decline was only se on July; but May dropped 1c. The feature of the day was the taking in of many of the large short lines of July and putting out of the September. The failure to catch many stop-loss orders at 40c and increase the offerings was looked on as a steady

Oats were unsettled. Prices declined 4c@14c early, chiefly on arrivale exceeding the estimates. After the decline there was a better feeling, and prices reacted to opening figures, the market closing steady for July and September, with 160% lower for May and June. Charley Wright played with pork, send-

ing the price off \$1 on light business. A few speculators were caught on stop orders. and Wright got the pork, and then rallied the price 50 cents in a few minutes. Lard and ribs closed respectively .150 and .20c lower than Saturday. Vessel room was in good demand at 1%o

for wheat and 1 se for corn to Buffalo. Estimated receipts for to-morrow are: Wheat, 408 cars; corn, 1,000 cars; oats, 580 cars; hogs, 13,000. The leading futures ranged as follows:
